In his rounds Friday Constable C. T. Marsh stumbled onto a case of aqualor and want that almost surpasses belief.

In the West End in one of the cattle pens at Poyntz Bros.' Distillery, he found a man and wife making it their home.

Their bed consisted of straw and leaves, and other utensils they had none.

DANGEROUS PLACE

Boys Should Not Go in Swimming at the Mouth of Limestone

Saturday evening about 5 o'clock Sammy Routt, aged nine years, together with other companions, was bathing in the river at the mouth of Limestone creek.

Since the building of the ice piers an undertow has formed at this particular locality, and unconscious of his danger young Routt, while splashing about, was caught by the treacherous undercurrent and was being carried far out in the river and to his death.

Fortunately Captain Alex. Johnson, who has a fishboat nearby, heard the drowning boy's cry for help, and jumping into a fishing smack hastened to his rescue and caught him as he was sinking for the third time.

Captain Johnson, ever ready to lend a helping hand in distress, wishes to caution boys and bathers in general that danger lurks in the water at this spot, and that while perfectly willing to render aid, it is impossible for him to represent at all times and on all occasions.

Boys, heed the friendly caution.

REPUBLICAN COUNTY CONVENTION.

The Republicans of Mason county are called to meet in Mass Convention at the Courthouse in Maysville on Saturday, August 11th, 1906, at 2 o'clock p. m., for the purpose of selecting Delegates to the Congressional Convention to be held at Ashland on August 15th, 1906.

W. D. COCHRAN,
Chairman Executive Committee Mason County.

HAVING been denied the use of Douglas Park for holding the State Fair, Louisville might find a place over in Indiana.

REVISED figures indicate that the immigration to this country during the fiscal year ending June 30th last was 73,574 greater than it was during the fiscal year 1905. The immigration during the year last passed aggregated 1,100,073, against 1,026,499 for the previous year. It was notable that the class of immigrants was not so high as in many previous years; and it's growing worse each year, thanks to the cowardly politicians in Congress.

THE Evening Bulletin and THE PUBLIC LEDGER, the only two newspapers in Maysville, Ky., have a common rate card signed by both which is submitted to advertisers when they ask for rates. This succeeded a period of somewhat strenuous competition for business and is said to work admirably. One of the publishers informed a representative of The American Press that he carried more advertising the year following this agreement than ever before, although the rates were nearly doubled. It is doubtless a good thing for newspapers to refrain from throat-cutting, but how about an agreement of this kind if the anti-trust law were applied to it?—American Press.

Oh, that's oilright! The anti-trust law applies only when a thing is done "in restraint of trade," but, as shown above, this agreement increased the volume of business rather than "restrained" it.

It does look like the Fates were against Louisville and her State Fair. Last week there were 86 deaths and only 83 births in that city.

THAT enterprising Lexington fourteen-year-old who loaded up his pants pocket with blasting powder, parlor matches and cigarettes, will be all right again when he gets a new abdomen, an artificial arm—and some clothes.

TWO FIRST-CLASS young men of good families, occupying responsible positions in the Auditor's Office of the L. and N. Railroad, out on a business trip, filled up with Lexington booze, and while on a trolley car between Lexington and Paris used foul and disgusting language in the presence of a number of passengers, including one of the most refined ladies of Paris, and fell into the hands of the officials of Bourbon, who assessed a fine of \$100 each and sent them to the rockpile for thirty days. In addition to that they received telegraphic discharges from their positions. The young men were gentlemen when sober, and we know the father of one of them to be one of the most highly respected citizens of Louisville, but they were crazed with liquor.—Carlisle Mercury.

Are you sure this wasn't a dark, deep-laid scheme on the part of Louisville, just to show the sort of mean whisky Lexington will put up for visitors to her Bluegrass Fair?

LAMENTABLE IGNORANCE.

It was visiting day at the kindergarten, and the young teacher was proud of her little pupils as they went through their drills and exercises, and beamed with pleasure at the appreciation shown by the visitors, who applauded generously, according to The Buffalo Evening News. Then came the lesson, and the teacher announced the subject. "Children," she said, "today we are going to learn about the cat, and I want you to tell me what you know about it. Tommy, how many legs has a cat?" "Four," replied Tommy, proudly conscious of rectitude. "Yes, and Daisy, what else has the cat?" "Claws an' tail," murmured Daisy shyly. Various other portions of feline anatomy were ascertained, and finally the instructor turned to one of the latest acquisitions of the kindergarten and said sweetly: "Now, Mary, can you tell me whether the cat has fur or feathers?" With scorn and contempt, mingled with a vast surprise, Mary said: "Gee, teacher, ain't you never seen a cat?" And the lesson came to an abrupt end.

RUGGLES CAMPGROUNDS, August 3d, 1906.

Campmeeting is drawing to a close. Soon we shall begin to think of packing up and moving out—at the same time we begin to think about coming again next year. We have never heard a word of regret from anyone that they came. Everybody seems to have enjoyed and profited by being here. Everything has moved along so smoothly; good order has prevailed; the weather, with the exception of the first Sunday, has been ideal. The various meetings have been arranged and conducted to the very best advantage, due, in a great measure, to the splendid leadership of our beloved Presiding Elder, Rev. F. W. Harrop.

Today has been another profitable one to us all. The early morning prayer service under the leadership of Rev. Oille Ragan was inspiring and a good preparation for the meetings which followed. The 10 o'clock meeting, as was announced, was in the nature of a temperance rally in the interest of the effort being put forward by the good people of Lewis county to bring the great question to a vote. The following Pastors spoke on the question: Rev. Barker, Rev. Tarley, Rev. Muse, Rev. H. C. Northcott and Mr. Robert T. Marshall. The talk of Mr. Marshall was especially good. He spoke from personal experience, being Chairman of the Law and Order League of Fleming county, showing that Prohibition was both possible and practicable. The temperance workers of Lewis county, who arranged for this meeting, are to be congratulated on the success of it and it will no doubt be a great stimulus to them in their work.

Dr. Baker this afternoon by special request repeated a Bible reading given by him here two years ago on "What is It?" the "it" being the question of sanctification on Bible Holiness. He handled his subject in such a clear and convincing manner that we all went away much enlightened on this great question. Tomorrow he will give his splendid reading on "Anointing for Service." He has received many commendations on this reading by Bishops and other learned men of the Church.

Dr. Oliver preached another strong sermon tonight to an immense crowd. Mr. Boyd K. Mose sang a very effective solo at this service. The evening congregations continue to increase. The people from the surrounding country begin to gather as early as 5 o'clock and by 7 o'clock the grounds are alive with people. It is really a pleasant sight to watch the crowd as they move about the well lighted woods.

Mr. I. M. Lane and Miss Cruise spent the day at Glen Springs.

Rev. F. W. Harrop was called to Maysville this afternoon on account of the death of Mrs. Foster, whose funeral he will conduct tomorrow, returning here tomorrow night.

Mr. Garfield Walsh of Huntington, W. Va., arrived today.

Editor Thomas H. Bell of The Germantown Enterprise is with us today enjoying campmeeting life. J. H. R.

We wish to thank our friends and patrons for the interest manifested in this our initial sale.

If you need a vehicle you cannot afford to overlook this sale.

At Chillicothe, O., where the boiler-makers are on a strike in the B. and O. S. W. shops, all clothing merchants refused to sell overalls to the railroad company, which later received a shipment from Leesburg. Two grocerykeepers refused to sell provisions. Later, four leading grocers filled orders and will continue. One meat market sold meats. The strikers are active among business men. Even barber shops refuse to shave railroad officials.

The gage marks 88 and falling.

The towboat George Matheson is having her boilers repaired at Cincinnati.

The Sprague will bring an immense tow of empties up from New Orleans to be taken to Pittsburgh. Rivermen predict a good rise in the Ohio by the end of the month.

The towboat H. M. Hoxie, which sank during a boiler explosion near Portland, O., a few months ago, has been raised. The Hoxie will be rebuilt, as she is not as badly damaged as was thought.

The landings in the Pittsburgh harbors are filled with loaded craft. River coal operators are reluctant to give an estimate of the amount of stock on hand, but there is probably 15,000,000 bushels in the boats and barges.

A new device for the registration of the stage of water in the rivers has been invented and recommended for use by many of the members of the Engineers' Corps of the navigable streams of the country. The first of the devices is to be installed at Pittsburgh.

On account of the low Union bridge at Pittsburgh, the hull of the steamer S. S. Brown, which was launched several days ago by the American Bridge Company, Ambridge, Pa., and towed to the James Roe Son Company's works, where it will be finished, the bulkheads of the boat had to be filled with water to the depth of four feet. This process permitted the boat to get under the bridge.

JOHN DULEY.

CONCERNING THE CLOCK

New York Herald.

Did you ever take time to consider the clock? You should have done so. If you have not, seeing the clock gives you the time whenever you ask it.

(No, this is no joke. It is a plain statement of facts.)

The clock is so sensitive that it constantly keeps its hands before its face. This is due to the fact that through no fault of its own it has been doing time for many years in the most public manner. It may be that as the face of the clock has no eyes, nor mouth, nor nose, nor chin, nor cheeks, nor any of the usual facial appendages, it keeps its hands over it to hide these defects. But this can scarcely be, we fancy, because its its hands have no fingers nor thumbs, nor has it any arms, and any attempt to conceal one defect would only expose another.

Most clocks have only two hands, but many have three, and it is somewhat remarkable, anatomically as well as numerically, that the third hand is the second hand. It may also be remarked that the minute hand is not the minute hand, for it is longer than the hour hand.

The clock has neither feet nor legs, but it runs just the same. It may be fast or slow, but it does not walk. It always runs, and it never runs up. It runs down unless it is kept running round. Providence wisely did not give feet to the clock.

The clock has a key, but no lock, and for that reason even the most ignorant person never tries to open a clock with the key.

Some clocks strike and some do not, but no clock ever strikes with its hands. Just why a clock should be so peculiar is no affair of ours.

(Of course this is no joke. The striking of a clock may be an affair of hours, but it is not spelled the same way. We are not trying to be funny. This is a dignified article. Please do not interrupt us again.)

That passage in Scripture which says "By their works shall ye know them" does not refer to clocks, but it might well have done so, because that is the way a good clock is known.

The clock speaks a universal language, and no matter whether it is a German clock, or French, or Spanish, or Italian, it can tell you the time just as distinctly as if it were plain Yankee.

The clock differs from all other human affairs in that while their operations end when they are wound up, the clock's do not begin until they are wound up.

There are no clocks in heaven, because there is no time there. Neither is there any night, and an eight-day clock wouldn't know when to stop.

Kidney Diseases are too Dangerous for Maysville People to Neglect.

M. C. Chisholm, Constable in District No. 2, living at 343 East Second street, Maysville, Ky., says:

"Doan's Kidney Pills positively cured me of kidney trouble and I do not hesitate to give them the strongest kind of recommendation. I had been troubled with too frequent action of the kidney secretions and it disturbed my rest nights. Having my attention called to Doan's Kidney Pills, I procured them at J. James Wood & Son's Drugstore and I noticed an improvement in my condition from the start. My trouble was soon entirely cured. This was some five years ago and I have had no return of it since. Anyone suffering from difficulties arising from disordered kidneys can make no mistake by using Doan's Kidney Pills."
